# CLAYTON HYNFIELD

## Digital Transformation Leader

*Cincinnati, Ohio*

EXPERIENCE

## THE KROGER CO.

*One of the world's largest grocery retailers, The Kroger Co. spans many states with store formats that include grocery and multi-department stores, discount, convenience stores and jewelry stores, with annual sales of over $100 billion.*

### Platform Architect                                    Oct, 2016 – Present

- Automated the provisioning and regression testing of Pivotal Cloud Foundry platforms.
- Helped facilitate a lean platform DevOps dojo, delivering MVPs for platform monitoring, app log and metrics aggregation and analysis.

## LIBERTY MUTUAL INSURANCE

*A diversified global insurer and the third largest property and casualty insurer in the United States, Liberty Mutual Group ranks 78th on the Fortune 500 list of largest U.S. corporations. With an annual consolidated revenue of $33.2 billion, the Group has over 50,000 employees located in more than 900 offices throughout the world.*

### Principal Platform Engineer        Jan, 2015 – Sep, 2016

*Led technological, organizational, and cultural transformation of a Fortune 100 financial corporation*

- Led the product team in building and running a global, multi-region PaaS using Pivotal Cloud Foundry (https://pivotal.io/liberty-mutual) on vSphere and AWS IaaS, custom components for platform operations and integrations, and advanced IaaS features like AWS Lambda and CloudFormation, in support of all lines of business including new $20bn lean startup-model business line.
- Led the platform team in identifying release- and sprint-level value metrics and measuring delivery against commitments, allowing the team to iterate or pivot to business value.
- Established a vigorous development and ops pairing rotation, building cross-functional skill sets and raising bus count (http://bit.ly/2jc8Lpe).

### Principal Systems Administrator        2012 – 2014

*Saved est. $4.6M in hardware and software costs over six years*

- Recommended, designed, and led the deployment of enterprise WebSphere integrated platform.

### Senior Systems Administrator          2008 – 2012

- Designed, developed, and led delivery of rapidly deployable JEE platform service, including instance life cycle management.

## OHIO CASUALTY INSURANCE
### Senior Systems Engineer          2005 – 2008

- Architected and automated delivery of database platforms servicing over fifty web applications with no outages in three years of production service.

## MIAMI UNIVERSITY
### Systems Administrator/Engineer          1996 – 2005

- Led project to acquire, architect, and deploy distributed, highly available DHCP and DNS solution; migrated 15,000 clients and hundreds of servers to new service with no impact.
- Developed standards and best practices for installation and maintenance of Unix systems.

## EDUCATION

## MIAMI UNIVERSITY
### BS, Engineering Physics          1996
### BA, Philosophy          1996

## SKILLS

## CLOUD TECHNOLOGIES
- BOSH, Cloud Foundry, Pivotal Ops Manager
- AWS CloudFormation, Lambda, CloudWatch, CloudTrail, IAM, EC2, S3, ELB

## LANGUAGES, SYSTEMS, AND TOOLS
- Ruby (http://bit.ly/2iW7l4p), JavaScript (http://bit.ly/2jcbjDH), Perl, Python, Go, C/C++, Java
- Linux, Unix, macOS, Windows
- SQL, NoSQL
- Git (http://bit.ly/2jrIHY0), Subversion

## NETWORK
- TCP, UDP, HTTP, SMTP, SNMP, DHCP, DNS, switching and routing, some Cisco IOS
